

## Ideation & Planning

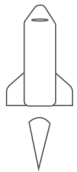

### We are an IoT systems integrator, providing end-to-end IoT Solutions.

There is a gap in today's business model between the customer's ideas/wants and the functions of pre-provided platforms. Too often, a customer's innovation is inhibited by technology.

## Design & MVP Development

**ClearObject** enables this innovation by bridging the gap between a customer and their preferred platform with custom solutions and continued management. Our Connected Solutions will integrate with the platform of your choosing, allowing you to incorporate existing technology into a new solution.

## Launch & Deployment

### ClearObject has the ability to monitor, build and iterate upon cohesive IoT solutions, ensuring an uninterrupted customer experience:

- Asset management integrations
- Custom alerts and reporting
- User-centric design
- Agile development of pilots
- Machine Learning modeling
- Big Data analytics
- Perimeter patching and upgrades
- Mobile app design
- Custom dashboards
- Track and trace asset management
- Backups and disaster recovery
- Digital twin creation

## Managed Services & Continued Innovation

### IoT connects every "thing", so we can work across any industry:

- Automotive
- Energy
- Manufacturing
- Housing Development
- Food Services
- Operations/Distribution
- Agriculture

## Solution Stories

**Automotive:** Our team worked to improve overall product quality by providing internal engineering teams with live field data, better informing their new product development.

**Industrial Manufacturing:** ClearObject was able to drive innovative product design for smart home products by analyzing customer usage patterns and optimizing the user interface experience in real time.

**Operations and Distribution:** ClearObject helped a customer increase their operational profitability by enabling delivery and logistics optimization through IoT activation.

**Housing Development:** Our ability to publish usage and consumption patterns of residents allowed developers to incentivize energy efficient tenants with additional services and reduced cost of services.
